Company: Developers Clan

#### https://itunes.apple.com/us/app/byte/id889279286?mt=8

Tools: Xcode

It is the easiest way for you to not only discover new food, but also see it before you eat it, find deals around you and get rewarded by your favorite restaurants!

You get rewards with points towards exclusive deals at each restaurant you visit. When you visit a restaurant, leave feedback on a menu item or share your meal on social media you collect points that add up to exclusive prizes (discounts, special items, free appetizers/entrees, etc..)!

BYTE lets users discover food like never before! Users may search by trending restaurants, nearby locations, individual menu items, dietary restriction (gluten free/paleo diet), and of course specifically by name.

When looking at a restaurant profile, BYTE users may view hours, contact info, online resources and full menu, complete with pictures, item descriptions, ingredients and past comments from REAL customers. BYTE knows when you visit a restaurant and only lets you perform an action if you have visited he restaurant within the past two hours
